User Manual

Model: HA82TSD-S

We bring good things to Hotel Hospitality!

Please read this manual before use.

1. Product Overview

UNOPro series telephone continues the design style of Bittel, unique, compact, and exquisite. It's designed for hotel room requirements, using high-quality electronic materials and various patents, feature-rich, and stable in performance. The handset of this product can be placed face down or up, and when it is placed face down, dialing and speaker calling can be realized without picking up the handset.

[Handset] ---- hearing aid compatible.

[Speed Buttons] ---- Speed-dial the phone number with a single key (up to 32 digits), and the number will not be lost when the power is off.

[VOL+/-] ---- Volume up/down key for handset and speaker mode.

[MUTE] ---- During a call, the voice sending will be turn off.

[HOLD] ---- Holds the line during a call.

[ON] ---- The handset power on and speaker switch button.

[OFF] ---- Press this key to hang up while the handset is talking.

[Message Indicator] ---- Ringer, message prompt.

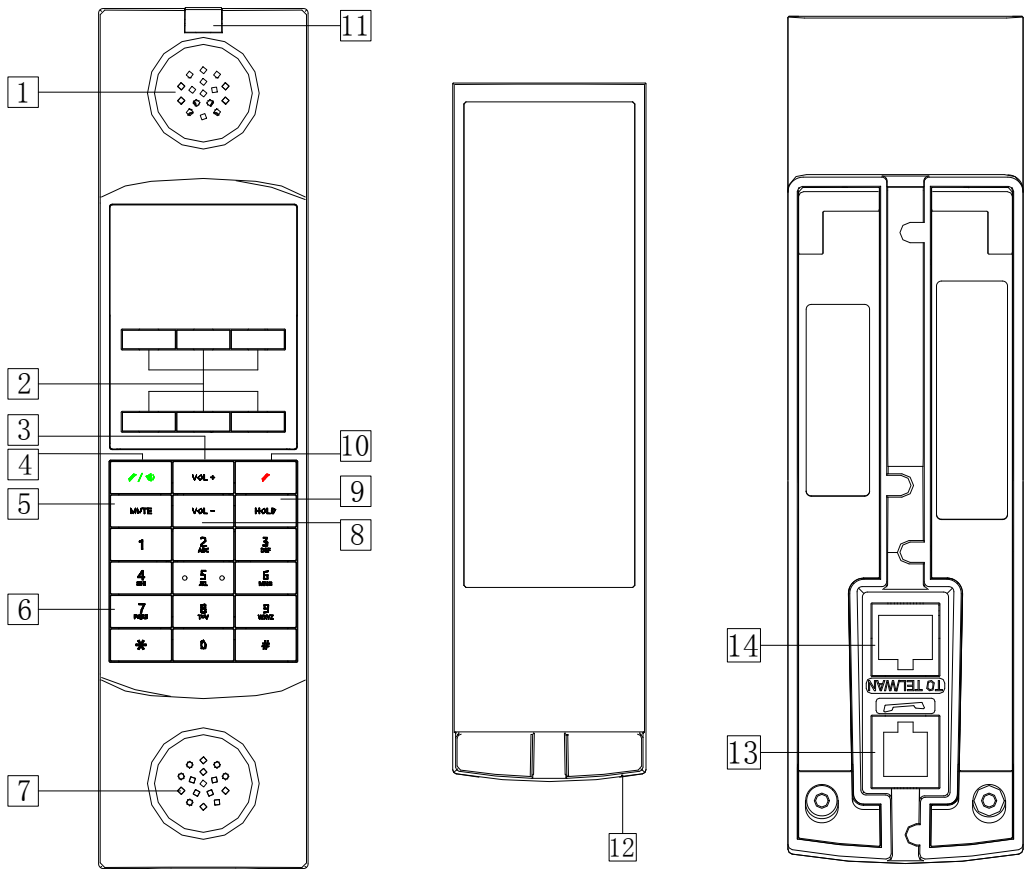

[Programming Function] ---- The speed dial number can be programmed using a handheld cloner or a cloner handset.

Busy tone disconnects automatically.

2. Installation

The telephone should be installed in a dry, ventilated area free of corrosive gases. Insert the end of the handset cord into the handset cord socket and connect the two-prong standard socket on the wall and the telephone line socket of the telephone set with a straight line.
