10. Adopts dynamic speech detection; Comfortable noise generation; Speech buffering technologies.
11. Integrated PoE power supply and external POE adapter power supply.

CONTROLS AND FUNCTIONAL KEYS

- 1. MUTE Key
- 2. HOLD Key
- 3. ▼
- 4. ▲
- 5. Number Keys
- 6. Handset
- 7. Service keys
- 8. Indicator

9. Redial
10. Speaker
11. MWL
12. FLASH

13. LAN Port
14. WAN Port
15. DC Jack
16. Handset Jack

CONGRATULATIONS ON YOUR NEW JACOB JENSEN™ TELEPHONE

The telephone is designed in Denmark by Jacob Jensen, whose products have gained international recognition for their original, simple and classic design. Jacob Jensen has received about 100 prizes from around the world and has 19 products included in The Design Study Collection and The Design Collection of The Museum of Modern Art in New York.

The IP60 has been designed specifically for hotel use. Voice over IP technology is employed for clear sound and reliable operation. SIP protocols ensure compatibility with all major brands.

Installation

- 1. Please connect the phone handset cord
- 2. Power by POE: Connect the output end to the WAN port of the phone and connect the input end to the Internet cable from hotel switch POE port.
- 3. Power by adaptor (The default is POE)
Please connect the 9V power adapter to the DC power input, which is in the rear of the phone; connect the Internet cable to WAN port of the phone, and connect the Internet cable to the LAN port of Data port/access point.
- 4. Please install the phone in a dry and clean environment and avoid contact with damp.
- 5. The telephone should not come in to contact with fire, water spray, or shock. Clean the surface with a soft damp cloth; never use chemical solvents.

CONFIGURE THE PHONE THROUGH WEB INTERFACE

1. IP address broadcast

In off-hook mode, press * button four times to enter the voice menu. Press 1 (network setting) then press 2 (WAN port IP address), a voice synthesizer will announce the IP address.

2. Launch WEB interface

Input the obtained IP address to launch WEB interface
`http://xxx.xxx.xxx.xxx` type in user and password to log in WEB interface.

Note:

- 1) Both the user name and password in initial management mode are 'admin'.
- 2) The default network mode is DHCP. Once the phone is connected into the network environment with DHCP service, it can get online automatically
